Proficiency Forte:

- ☞ Creating and delivering effective training modules that meet Qatar construction specifications, conducting onsite demonstration safety to reinforce safety practices related to power tools and working at height, and ensuring strict compliance with control measures to enhance workplace safety.
- ☞ Implementing the process for reviewing contractor safety performance against applicable laws, regulations, and client requirements.
- ☞ Developing & enforcing policies, procedures, programs, and standards for the organization to ensure the safety of multiple construction projects.
- ☞ Reviewing and approving health and safety plans prepared by construction contractors working for the project.
- ☞ Implementing & maintaining a standard procedure for reporting and investigating accidents, incidents and near misses in the project.
- ☞ Maintaining standard policies and operational control procedures for all construction activities.
- ☞ Reviewing client's construction specifications & advising construction staff for safety compliance.
- ☞ Doing Accident Analysis for tracking & monitoring accidents, incidents "near misses, and lost time incidents.
- ☞ Preparing & presenting written HSE reports to client HSE management.
- ☞ Carrying out Internal HSE audit on various projects and submitting the report to corporate HSE Division.
- ☞ Enhancing the company HSE performance by ensuring appropriate training to targeted attendees in a systematic and planned training matrix.
- ☞ Knowledge of UAE HSE Legislation (Dubai Municipality, Abu Dhabi Municipality, EHS, TECOM)
- ☞ Knowledge of Petroleum Development Oman Procedure and Policy.
- ☞ Making the risk Assessment and reviewing the method statement as per the requirement.
- ☞ Tracking of observation/recommendations for implementation till the close out action is completed.
- ☞ Participating in incident/accident investigations, inclusive of near miss incidents.

Significant Contributions:

- ☞ To raise awareness among personnel, we conduct regular HSE Campaigns for each crew, involving subcontractors to educate them about the Qatar construction procedures and site requirements. Additionally, we arrange start card briefings for each crew to ensure they follow and implement hazard control measures.
- ☞ To enhance awareness, we are rolling out GSTO 2024, World Safety and Environment Day initiatives. As part of GSTO, various programs are planned. We organise time-out session with the team to introduce the new pledge and discuss the maturity level of each principle. We define improvement plans collaboratively with the team.
- ☞ Conducted various training session in training room like: Site Induction, Working at Height & Confined Space. Provided orientation training like: Rules, Office Safety, Company Policies, and Emergency Response Procedures, etc., at SNC, WP Staff, Saudi Aramco Staff, PDO Staff, Contractor and Sub Contractor as well as hire employees.
- ☞ Prepared PowerPoint presentations & seminars for the training of Heat Stress Awareness, Hand Safety Awareness, Environment Safety Awareness and Eye Protection Awareness ETC.
- ☞ Suggested people about safety by the project Stop Card Observation(SCO) system in place. Thereby giving examples of safe and unsafe activities and conditions. Weekly and monthly evaluations were done on this and remedial action and recommendations are suggested accordingly.
- ☞ Helped the Subcontractor management and employees create a safe working environment with help of the training & information imparted.
