

Harith Al Damen

Civil Engineer

PROFILE

Qualified civil engineer with 10 years of experience specialized in “**Precast Building System Engineering**” field, Working in various capacities as detailing and documentation, Planning & cost control, Projects Coordination, Production & Site installation works. Proven success in identifying and addressing challenges to complete projects on-time and under budget. Applies cost-saving strategies without sacrificing practicality and quality. Manages large projects and teams to meet milestones and exceed quality expectations.

PROFESSIONAL EXPERIENCE

Production In charge , Sabri Farah International Precast , Amman –Jordan

Aug 2023 – Aug 2025

- To perform optimal planning & forecasting of mold and raw material requirement.
- Planned and executed daily, weekly, and monthly precast production schedules to meet project timelines and quality targets.
- Supervised the complete production process, including mold preparation, reinforcement placement, concrete casting, curing, demolding, and finishing.
- Managed and coordinated a team of technicians, operators, and laborers to ensure efficient workflow and adherence to safety standards.
- Ensured production quality by closely working with QA/QC teams and implementing corrective actions for any non-conformities.
- Monitored raw material inventory (cement, aggregates, steel, and admixtures) and coordinated timely procurement to avoid production delays.
- Oversaw mold maintenance, cleaning, and proper storage to maximize mold lifespan and ensure dimensional accuracy.
- Maintained accurate records of daily production, material usage, equipment downtime, and manpower deployment.
- Collaborated with design, planning, logistics, and site teams to align production with project requirements and delivery schedules.
- Enforced health and safety protocols in the production yard, conducted tool-box talks, and ensured compliance with HSE policies.
- Implemented continuous improvement initiatives to enhance productivity, reduce wastage, and optimize resource utilization.

- Camping

Procurement Manager , Ma'dan Iron Smelting, Zarqa- Jordan

February 2020 - June 2023

- Ensure uninterrupted supply of materials and stores without delay to various production and service departments of the organization.
- To prevent over-stocking and under-stocking of materials.
- Check all materials in terms of quality and quantity.
- Minimize storage costs.
- Ensure effective and continuous control over materials.
- To ensure optimal utilization of available storage space and workers engaged in storekeeping processes.
- Protect materials from loss and wastage due to defective storage.
- Identify and locate materials in storerooms without delay.
- To protect and safeguard material items from pilferage, theft, fire, and others.
- Develop a system that provides complete and up-to-date information about all stored items.

Site Manager , Hard Precast Building System , Dubai - UAE

January 2018 - April 2020

- Worked closely with engineers, land surveyors and other key stakeholders on different infrastructure projects.
- Attended all seminars and trainings offered by company to build knowledge and improve skills.
- Obtained quotes for project materials and communicated with suppliers to determine best pricing.
- Processed field data and created drawings for such projects as highways and bridges.
- Inspected project sites to monitor progress and adherence to design specifications, safety protocols and state sanitation standards.
- Devoted special emphasis to punctuality and worked to maintain outstanding attendance record, consistently arriving to work ready to start immediately.
- Resolved conflicts and negotiated mutually beneficial agreements between parties.

Senior Project Engineer , Al Ain National Precast Technology , Dubai - UAE

January 2017 – January 2018

- Calculated risks during project development and managed risks throughout projects.
- Managed projects effectively to deliver finished work on time.
- Developed accurate technical drawings to direct successful engineering projects.
- Educated general public through professional presentations and community discussions.
- Controlled engineering activities to maintain work standards, adhere to timelines and meet quality assurance targets.

Project Engineer , Advanced Construction Technology , Dubai - UAE

March 2015 – January 2017

- Double-checked documentation and work orders.
- Assisted in planning site layouts and blueprints.
- Gave presentations of completed work to managers.
- Assisted with quality inspections and document editing.
- Adjusted project plans to account for dynamic targets, staffing changes and operational specifications.
- Built and utilized reporting systems to keep customers and management in loop with latest information.
- Investigated and corrected or escalated project problems.
- Diagnosed and repaired computer hardware and network systems.
- Enforced alignment of project strategy with business objectives and made modifications to promote efficient project completion.
- Analyzed projects to determine resource requirements and procured necessary equipment and software.
- Managed and motivated project teams to promote collaboration and keep members on-task and productive.

Project Coordinator , RAK Precast, Ras Al Khaima - UAE

February 2014 – March 2015

- Investigated and corrected or escalated project problems.
- Gathered requirements, defined scopes, allocated resources and established schedules meeting or exceeding project demands.
- Managed and motivated project teams to promote collaboration and keep members on-task and productive.

Planning Engineer , RAK Precast, Ras Al Khaima - UAE

February 2013 – February 2014

- Altered and modified mechanical designs to meet requirements and eliminate malfunctions.
- Managed project documents, blueprints and specifications.
- Developed and implemented process flow improvement and standardization projects.
- Kept project on schedule and within budget while serving as project leader.

EDUCATION

Bachelor of Civil Engineering , Al Balq'a Applied Univercity , Amman - Jordan
Year of graduation 2012

PROJECTS

- Meydan South Mohammed Bin Rashid City Community Villas, Works as Planning Engineer.
- Al Soyoooh Boundery Wall Villas, Works as Planning Engineer.
- Shaikh zayed housing program boundary walls of Villas, Work as a Project Engineer.
- Nashama Town Squire Houses Community Villas, Work as a Project Engineer.
- Emmar Dubai Hills, Maple Pahse II Community villas, Work as a Senior Project Engineer.
- CRC Smara Villas Arabian Ranches II Community Villas, Work as a Project Engineer.
- Emmar Mira Osais Phase II Community Villas, Works as Project Coordinator.
- Secondary Technical School (G+1) Sharjah, UAE, Work as Site Manager.
- ASGC labour Camp G+4, Work as Site Manager.
- Villanova town houses by Arabtec construction, Work as a Site Manager.
- Meeras Community Villas by Engineering Office, Work as a Site Manager.
- Deira mall parking G+6 by Nakhel Properties, Work as a Site Manager.
